		Time	17:29

Technical Delegate's Report

After the race in Imola, car number 23 was randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections were all front and rear inboard suspension components, the front and rear dampers as well as all attached sensors, their loom routing and connections to the SECU and other units.

All inspected components were found to be in conformance with the 2025 Formula One Technical Regulations.
