Technical Delegate's Report

After the race in Monza, car number 04 was randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections was the steering wheel assembly. In summary, the following points were checked:

The physical steering wheel assembly was cross checked against the OSC submission as per TR Article 17.6.

The clutch operating device was examined and checked against TR Article 9.3.2.

The electronic schematics, supplied as part of TD001, were checked against the physical steering wheel.

General compliance checks against TR Article 8.3 and TR Article 8.7 were carried out.

All inspected components were found to be in conformance with the 2025 Formula One Technical Regulations.

Jo Bauer

The FIA Formula One Technical Delegate
